

## Slovakia

How many people die from smoking in Slovakia each year?

**7,201**

What is the annual cost-of-illness attributable to smoking in Slovakia each year?

**2,039,677,000**  
euros

### Current Rates of Smoking and Tobacco Use in Slovakia

Tobacco use continues to be an epidemic in Slovakia. Government complacency in the face of the tobacco epidemic protects the tobacco industry in Slovakia as the death toll grows each year. Proponents of healthier societies must push for the implementation of evidence-based best practices in tobacco control to create change and reduce the negative effects of tobacco use.

#### Adult Smoking Prevalence in Slovakia

15+ years old; 2025

Men	Women	Men	Women
<b>21.70%</b>	<b>15.90%</b>	<b>796,000</b>	<b>605,000</b>

Adult smoking prevalence in Slovakia is 18.80%.

#### Number of Adult Smokers in Slovakia

15+ years old; 2022

Number of adult smokers in Slovakia is 1,401,000.

#### Youth Smoking Prevalence in Slovakia

10-14 years old; 2023

Boys	Girls	Both Men and Women
<b>10.53%</b>	<b>10.81%</b>	<b>0.00%</b>

Youth smoking prevalence in Slovakia is 10.67%.

**Deaths Caused by Tobacco in Slovakia**

% deaths attributable to tobacco use in 2023

**Learn more about global Prevalence, Youth Smoking and Deaths.**

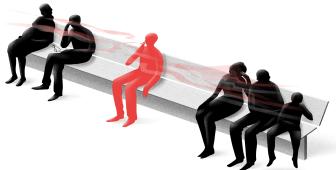

13.3% of all deaths in Slovakia are caused by tobacco use.

**Negative Effect of Tobacco Use in Slovakia**

**Tobacco use harms both the public and fiscal health of Slovakia, threatening efforts to improve equity, alleviate poverty, and protect the environment.**

**Societal Harms**

The annual cost-of-illness attributable to smoking in Slovakia is 2,039,677,000 euros. This includes direct costs related to healthcare expenditures and indirect costs related to lost productivity caused by illness and premature death.

**Harms Development**

Tobacco spending diverts funds from the resources that families need to rise out of poverty. On average in Slovakia, a smoker must spend 2.2% of GDP per capita to buy 100 packs of the most popular cigarettes in a year.

**Environmental Harms**

Cigarette butts are the most commonly discarded pieces of waste worldwide. It is estimated that 1,123 tons of butts wind up as toxic trash in Slovakia each year, equal to 416 female African elephants.

**Harms Health Equity**

The tobacco industry markets its products aggressively to lower-income populations and youth in Slovakia.

**Harms NCDs**

Not only is smoking a major risk factor for the 4 largest noncommunicable diseases (cancer, heart diseases, respiratory diseases, and diabetes), but people living with mental illness are nearly 2x as likely to smoke as other individuals.

**Learn more about Health Effects.**

### Impact of the Tobacco Supply Chain on Slovakia

**The tobacco industry profits significantly from producing and selling tobacco. At the same time, across the tobacco supply chain, there are significant negative health and economic repercussions for Slovakia.**

#### Tobacco Production

There were more than 5,000,000,000,000 cigarettes produced in the world in 2019, or nearly 2 cigarettes per person per day.

#### Tobacco Growing

There were NA tons of tobacco produced in Slovakia in 2023 on 10 hectares of quality agricultural land that could have been used to grow food.

#### Tobacco Industry

The total revenue of the 6 largest tobacco companies in the world was USD 364 billion in 2023, about the same as Pakistan's Gross National Income (GNI), 5x Panama's GNI and 9x Paraguay's GNI.

### Ending the Tobacco Epidemic in Slovakia

**Fortunately, there are evidence-based i.e. proven-solutions to the challenges posed by tobacco use. For several decades, governments around the world have been introducing a set of policies that address the demand for tobacco products, particularly among youth. These policies effectively reduce consumption and are cost-effective because they save governments enormous amounts of money in health care spending and increase economic productivity.**

## Tobacco Tax Policies in Slovakia

**Using evidence-based international recommendations/best practices, the Economics for Health Cigarette Tax Scorecard assesses four components of tax systems - price, change in affordability, tax share, and structure - on a scale of 0 to 5, where a higher score is preferred.**

Overall Score	Cigarette Price	Change in Affordability Over Time	Tax Share of Price	Tax Structure
<b>3.25</b>	<b>3.00</b>	<b>2.00</b>	<b>4.00</b>	<b>4.00</b>
The overall score is an average of the four component scores.	Consumers respond to higher prices by decreasing consumption and some quit using tobacco.	In addition to price, change in affordability is critical. Cigarettes need to become less affordable for consumption to decline.	Large tax shares of price are usually a good indicator that taxes are working.	Best practices include relying more on uniform specific excise taxes that are adjusted regularly to outpace growth and inflation.
